## REVO NC2 For PoC Speaker Microphone

### Convenience for Mobile Devices

**Push-to-Talk  
over Cellular**

**Noise-Canceling  
Microphone**

**Amplified  
Audio Output**

**15-Hour  
Battery Life**

### Designed specifically for smartphone and tablet users

The new Revo NC2 for Push-to-Talk over Cellular (PoC) brings the convenience and flexibility of a speaker mic to team members using smartphones and tablets to expand your communications network. With the Revo NC2 for PoC, users can engage in team communications without having to dig a phone out of a pocket or unlock a screen.

It offers the same outstanding features as our standard Revo NC2 speaker mic, including the patented, top-mounted noise-canceling microphone that delivers optimum voice clarity in high-noise situations. The large, textured push-to-talk button is easy to use, even with gloves, and an optional earpiece can be added for private listening.

The Revo NC2 for PoC is the easy-to-use, efficient and cost-effective way for team members using mobile devices to stay connected and participate in team communications.

## Features

- High-performance noise-canceling microphone delivers industry-leading voice clarity over mobile networks.
- Efficient, high-gain, low-distortion amplifier makes it easy to hear transmissions without draining the phone or tablet battery.
- Integrated rechargeable battery provides 15 hours of service at an 80/10/10 duty cycle. Charges easily via USB.
- Built-in debris screen keeps dust and dirt from impacting transmission clarity.
- Heavy-duty clothing clip rotates 360 degrees for precise, convenient positioning.
- Hi/Lo volume and On/Off slider switches are unobtrusive and intuitive.
- Audio jack accepts an optional earpiece for private listening.
- Transmissions can still be heard (at reduced volume) if the speaker mic battery is fully depleted.

With its low-profile, tapered design, the **Revo NC2 for PoC** is the choice for demanding public safety, disaster recovery and emergency response teams, or any team using phones and tablets to extend its communications network. It works with all mobile phone and tablet models with a 3.5mm audio jack to allow hands-free listening and clear, convenient, push-to-talk voice transmissions.

## Specifications

- Compatible with most smartphones and tablets (may require a separate adapter for specific devices)
- Meets MIL-STD-810G for high performance in harsh environmental conditions including 40 mph blowing rain
- Heavy-duty cable assembly withstands a 30-lb. pull for durability
- PTT switch life: 200,000 cycles
- Operating temperature: -20° C to +60° C
- Storage temperature: -40° C to +70° C
- 1 -year warranty

**Designed, Manufactured and Engineered in the U.S.A. for Over 50 Years.**
